-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Moreland et al. US 6,598,632.
3. The rejection set forth under 35 USC 103 in the paper mailed 6/5/06 is deemed proper and is herein repeated.
4. Applicants newly amended claims and the remarks filed in support thereof have been fully considered but have been found not persuasive.
5. Applicants have amended the claims so as to limit the R2 substituent to 18 to 24 carbon atoms. Applicants argue that the Moreland et al. patent teaches the equivalent R group to have 13 to 15 carbon atoms. Applicants point out that the Moreland et al. patent is concerned with a glossy black color and nothing in the patent suggests that the glossy black color is obtainable using surfactants having 18 to 24 carbon atoms in the alkyl substituent. This is not persuasive.
6. The difference between the compounds of the art having 15 carbon alkyl groups and those claimed having 18 to 24 is obvious and not patentable. The structural similarity between the compounds and the fact that they are homologues renders them prima facie obvious from those in the patent. Case law has well established that, absent unexpected results, homologues are prima facie obvious. There is no showing or allegation of unexpected results of record. Furthermore, the claimed surfactants are

known and commercially available. One of ordinary skill would have a reasonable expectation of the results when selecting the claimed surfactant compounds. As such, the difference between the claimed compounds and those of the prior art are considered prima facie obvious.

7. There are no unexpected results of record.

Conclusion

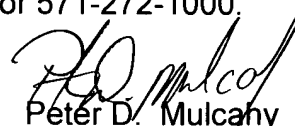

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
